

HealthInteract™

*Healthcare Professional-Patient Group
Mutual Observation and Interaction*

HealthInteract™ is a flexible process in which a small group of physicians or other HCPs observe a small group of patients discussing a health issue, combined with patients observing the HCPs speaking on the same topic. Afterwards, groups or individual patients and HCPs then interact in person.

Segmedica uses **HealthInteract™** to get results that offer insights for developing tactics and programs to help patients and HCPs interact more effectively.

Deliverables include full video footage of interactions, transcripts of all the conversations, PowerPoint presentation, and written report.

Our research is fully HIPAA compliant and 100% quality controlled to ensure accuracy and effectiveness of the conversations. Our objective is high gain conversations that will have an impact on your marketing objectives.

All HCPs are drawn from our HealthAcuity® panels and are fully practically and psychologically profiled.
